Test Case 1 – OrangeHRM Login Page

Test Case ID: WB01

Test Case: Verify OrangeHRM login page is displayed

Test Steps: Open the OrangeHRM login page in the browser.

Expected Result: OrangeHRM login page should be displayed with Username, Password and Login fields.

Actual Result: OrangeHRM login page was displayed successfully with Username, Password and Login fields.

Status: PASS

Test Case 2 – White-Box Source Code

Test Case ID: WB02

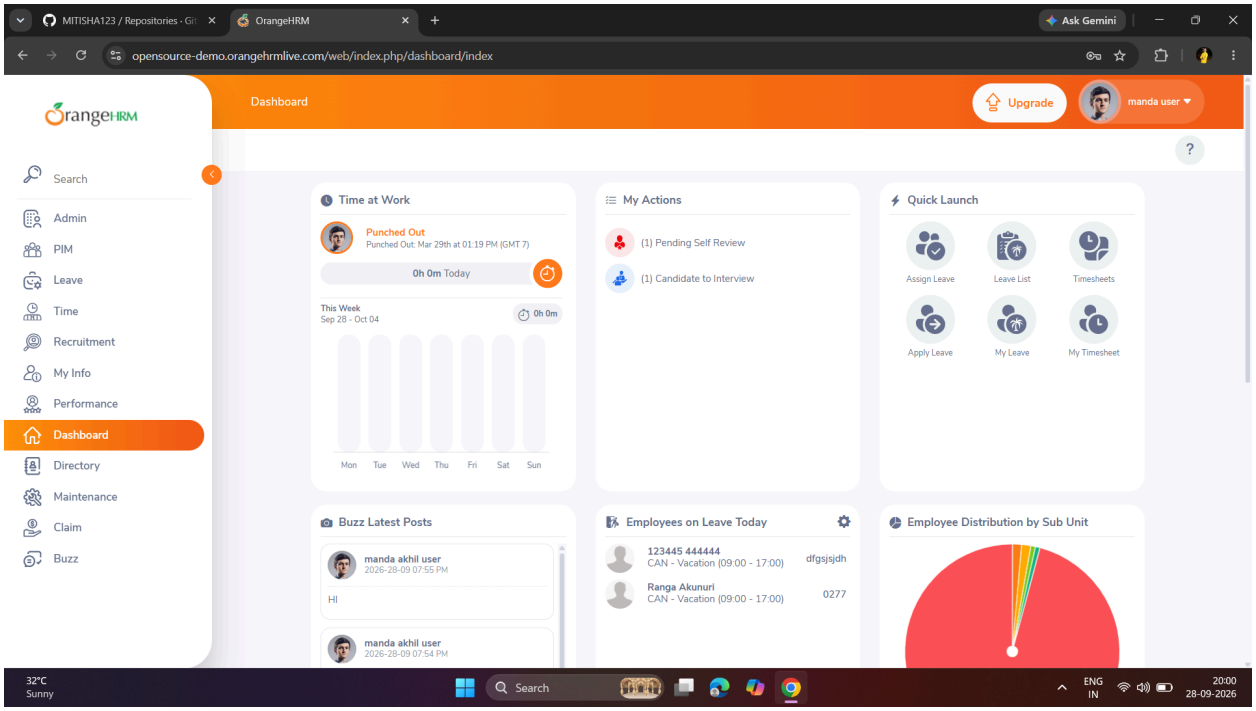

Test Case: Verify login logic is implemented using conditional statements

Test Steps: Open the `whitebox.py` file in Visual Studio Code and review the login function and conditional branches.

Expected Result: Login logic should contain a condition for valid credentials and separate True and False execution branches.

Actual Result: Login function with valid and invalid credential conditions was implemented successfully.

Status: PASS

Test Case 3 – Valid Login

Test Case ID: WB03

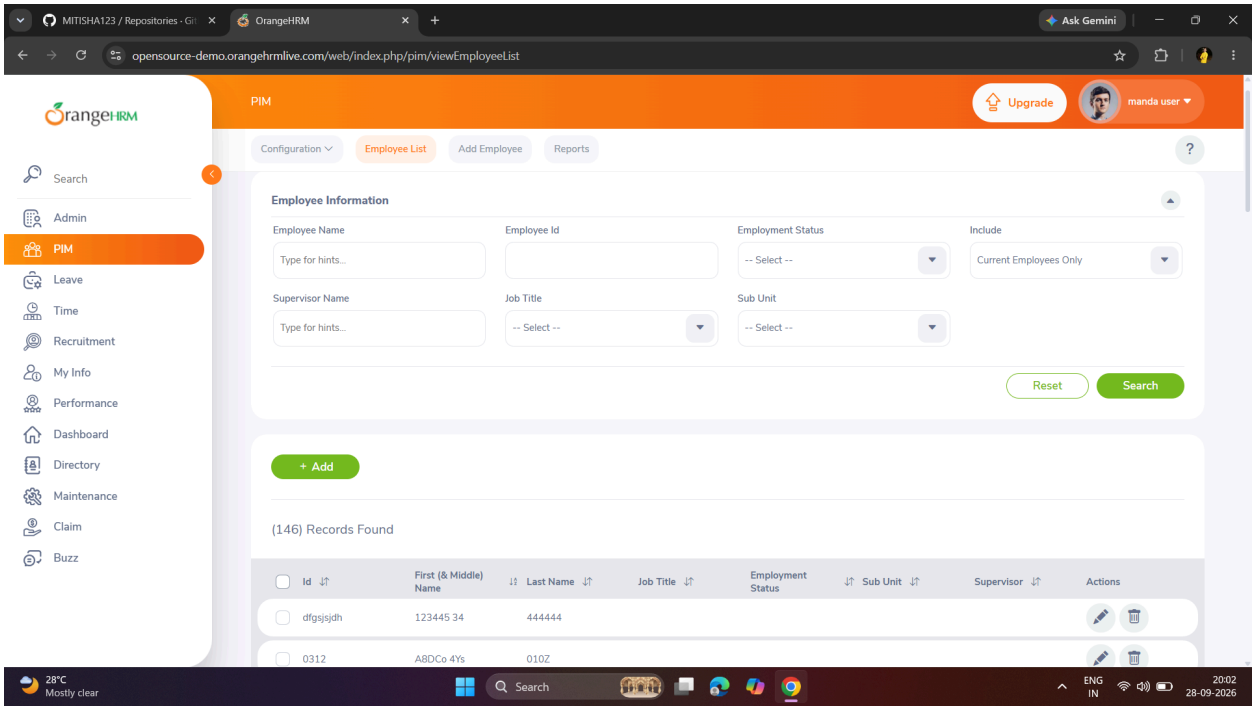

Test Case: Verify login with valid username and password

Test Steps: Enter valid username `admin` and password `admin123`, then click the Login button.

Expected Result: User should be logged in successfully and the Dashboard should open.

Actual Result: User logged in successfully and the OrangeHRM Dashboard was opened.

Status: PASS

Test Case 4 – Invalid Login

Test Case ID: WB04

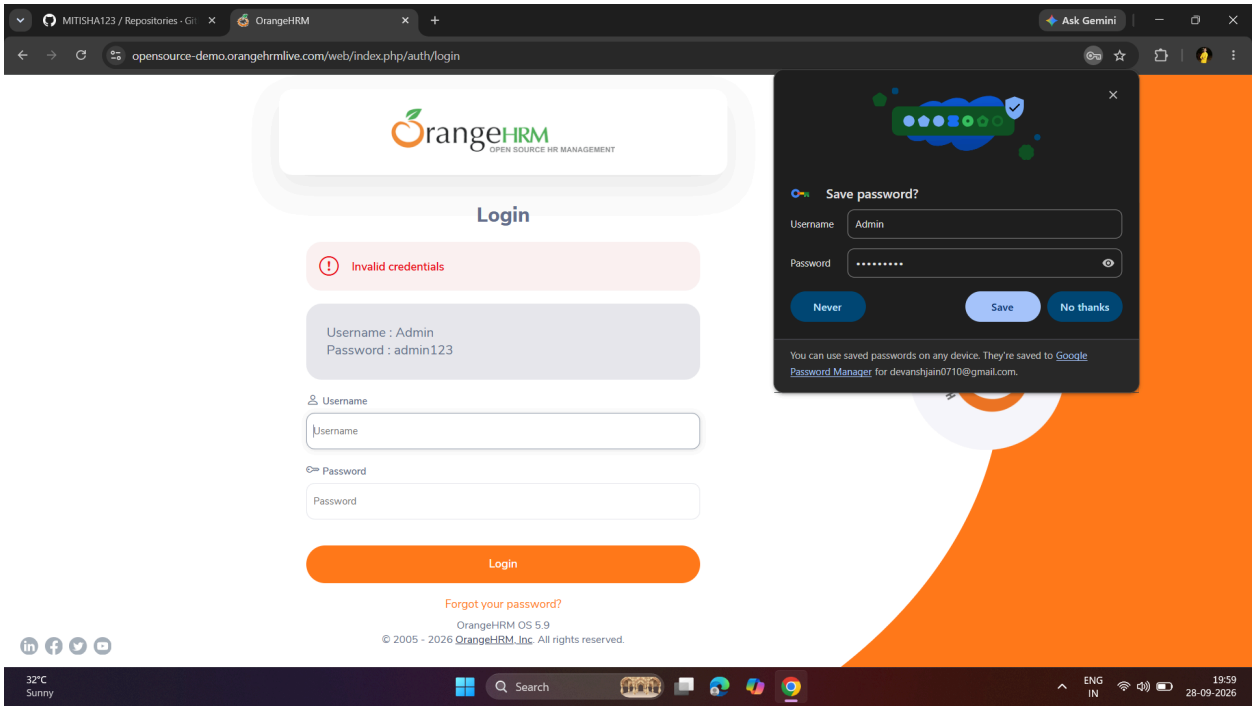

Test Case: Verify login with invalid password

Test Steps: Enter username `admin` and an incorrect password, then click the Login button.

Expected Result: System should display an invalid credentials message.

Actual Result: Invalid credentials message was displayed successfully.

Status: PASS

Test Case 5 – Python Program Execution

Test Case ID: WB05

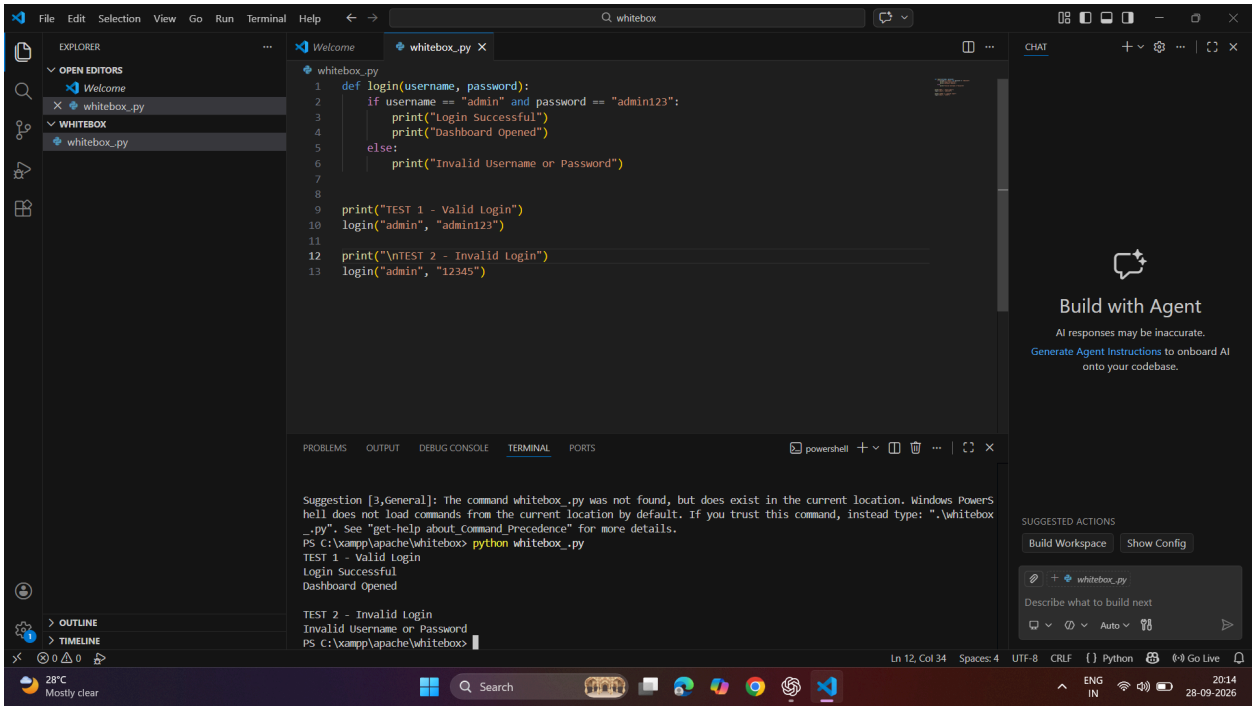

Test Case: Verify both valid and invalid login branches are executed

Test Steps: Run the `whitebox.py` program in Visual Studio Code.

Expected Result: Program should execute both valid-login and invalid-login branches and display their respective outputs.

Actual Result: The program successfully displayed **Login Successful / Dashboard Opened** for the valid branch and **Invalid Username or Password** for the invalid branch.

Status: PASS
